a decided movement of the public mind toward a matery system of punishments will be much aided to philanthropic exertions of Mr. Hill, who appears as desirous of benefiting Society by improved inal laws as his brother Mr. Rowland Hillis doing by office reforms. Government is evidently becoming wind with sound views on the question discussed by Hill, and as Government is comparatively powerless a sheence of a prevailing public opinion, we hope views will be pondered by the thinking portion of

For Sales of Stocks, &c. see Fourth Page.
FRIDAY, P. M. The stock market to-day was rather heavy, and the fancies fell off. The sound stocks were generally

firm and in good demand. Treasury Notes sold at 45 prem, which is a little lower.

will probably be increased by the new activity in produce. Sterling is quoted at 61 & 7. France 5.35.

In freights there is not much doing, and rates are unsettled. The quantity of produce ready for shipment is so small that it is difficult to load the vessels waiting business. Nominally the market is at 3s; Grain nominally 8 & 10d heavy freight 35s.

The news by the Caledonia gives very general satisfaction, especially to the produce dealers. The immediate effect has been a rise in all descriptions of

effects to this country. This has been used as a lever to depress stocks, but the success has not been very marked.

Baring's Circular of April 19 remarks as follows:

No change in American stocks. The intended payment of interest by the State of Maryland on 1st January next, has given firmness to the holders of these bonds, and there are buyers at 65, without finding many sellers. In Pennsylvania some small parcels sold at 65 200.

Correspondence of The Tribune.

Liveroot, April 19, 1847.

Prior to the steamer's arrivation the 18th, it was fully expected that she would bring an account of a deficiency in the receipts of Cotton of \$5,000 bales, comparatively with last year, and prices advanced about 3-16 per 1b. On the 18th, when the deficiency was known to amoust to 50,000 bales, a farther advance of; occurred; but on the 17th, it concession was made, the sales being 3000 bales, and the circular quotations not obtainable. The tendency of prices would be downward, but for speculators; their ability to operate and to hold spetting daily more tried, from the enhanced rates required for discounts, the minimum Bank of England rate for bills due within 14 days is 5 per cent, and 6 is the general rate; while 5 months bills elsewhere pay 10 per cent. The bullion in the Bank of England is reduced to £3,87,03, and a crists seems approaching in French monetary matiers. The Corn markets, too, are advancing, both here and in France; and it is an anomaly to see Breadstuffs, Cotton, and Interest, all simultaneously advancing. The probability is that Cotton must give way. A farther drain of three millions sterling will cause either a paric, or make an order in Council necessary to allow of a deviation from the last Bank account, which allows an issue only on 14,00,000 beside the specie on hand. One million more will certainly go to America before we can hear farther as to the rate of exchange, At 10d, exchange specie can be shipped without loss. Indian Corn is arriving in large quantities both here and at the Irish ports. Several cargoes have arrived or expected at Cork, deliverable at any ports in the United Kingdem, and they are being offered at 30s per 400 lbs, here landed. Parcels got into good condition are selling at 51s a 5s ed in waschouse and shipped free again. Flour has gradually advanced 3s per bbl in a fortnight; 38s a 41s la the range of prices. Such has been freely sold at 38s within three days, but now 38s is asked, and since the foregoin

and Flour in England to supply us to the beginning of harvest, and we look for a still farther rise in the value of these articles. Indian Corn firm at our last quotations. Corn Meal scile at about 22a. per bhl.

We have had a flat Cotton market to-day. The sales are 3,000 bales, all to the trade, at fully id decline on Thursday's prices.
Flour is again a little dearer; tha is asked for Western Canal, but not currently paid; we may quote 4ia to 42a. Bailtimore and Ohlo bring 40a. readily. The high price of Wheat checks operations. A moderate demand is experienced for Indian Corn and Corn Meal at our quotations.
There is a growing apprehension on the subject of Money.
